M/C Service Solutions Executive Speaks at Ingram Micro Executive Meeting

Troy MI – January 23, 2004—Scott Goemmel, Vice President of M/C Service Solutions, a leading desktop support and remedial maintenance provider was invited to be an expert panelist at the Ingram Micro North American annual executive kickoff meeting that took place in Los Angeles earlier this month.

“Our industry continues to change rapidly. Sharing strategies and industry trends with our strategic partner, Ingram Micro, allows us to leverage the consolidated strengths of our organizations in building and sustaining business opportunities”, said Scott Goemmel.

M/C Service Solutions is differentiated from their competition based on a combination of their flexibility and unique delivery approach. Their solutions incorporate the principles of asset management throughout the support lifecycle, providing actionable information their customers use to improve IT decisions. This is achieved by leveraging support knowledge across 3,000 customer locations, 200,000 supported IT assets, spanning 38 states.
